   Provided that the Authority may from time to time supplement such conditions or adapt such conditions to the specific exigencies of digital radio broadcasting.

5. (1) The Authority shall levy those tariffs from a licensee as set out in Schedule II.

   (2) When the same nationwide radio broadcasting service is simultaneously transmitted on an analogue and digital frequency without any editing being made to the digital retransmission so that both the analogue transmission and the digital retransmission are totally identical in so far as programme content is concerned, the Authority shall not charge the licensee any fee for the retransmitted station which is already licensed in terms of the Act.

   (3) In the case contemplated in sub-regulation (2), the nationwide radio broadcasting service which would already be licensed as such under the Act will not need to fill in an application form to simulcast its transmissions but such broadcaster shall

*see sub-regulation (2) of regulation 1 of these Regulations as originally promulgated.
request beforehand approval in writing from the Authority to simulcast its transmissions.

6. Unless otherwise lawfully terminated or abridged in accordance with the Act or the licence, the period for which a digital radio broadcasting licence shall remain operative shall be up to a maximum of four years and such a digital radio broadcasting licence shall be renewable every four years.

7. A licensee shall provide the Authority with programme schedules in such format, at such intervals and containing such information as the Authority may establish.

8. The Authority may license a digital radio broadcasting service to offer such number of digital radio stations which originate locally allowed by law and foreign retransmitted digital radio stations.

9. (1) Whenever a licensee during the validity of a broadcasting licence proposes to change the digital radio services channel line up as approved by the Authority in the licensee’s licence, the licensee shall write to the Authority requesting a change in the channel line-up. The licensee shall provide detailed reasons and information as to the proposed channel line-up for such a change.

(2) The Authority may either approve or reject the request.

(3) When the Authority approves the request, it may impose such reasonable conditions as it may deem fit.

(4) When the Authority refuses to approve such request, the Authority shall give reasons for its decision.

10. Where a digital radio broadcasting service is not provided in unencoded form, the licensee shall provide such number of free services to the Authority as it may establish in order to enable it to carry out its monitoring functions. Such free service shall mean the installation and provision of a licensee’s programming services.

11. (1) Station sponsorship of a digital radio station shall be prohibited.

(2) For the purpose of this regulation "station sponsorship" means the naming of channels after sponsors.

12. (1) It shall be permissible to simulcast a community radio service on a digital radio platform or network for a period not exceeding two years.

(2) Any community radio station which has availed itself of the provisions of sub-regulation (1) shall not pay any additional licence fees other than those applicable for community radio stations.

(3) No community radio station shall interrupt the period of simulcasting.

(4) On the termination of the two year simulcast period, and provided that the community radio station chooses to migrate to the digital platform, it will cease to operate as a community radio station on the analogue platform.
(5) During the period of simulcasting, the terms and conditions of the licence issued by the Authority to a community radio station shall remain in force.

13. All licences issued under Digital Radio Broadcasting Regulations* which are still in force on the date of the revocation of the said regulations shall continue to remain valid and shall be regulated by these regulations from that date onwards.
