

16. GHARGHUR TRANSMITTING TOWER

The Authority continued to remain responsible for the Gharghur transmission station. During 2008, the Authority concluded the maintenance works on the tower, approved and awarded a tender for the strengthening of the tower, which works are estimated to be completed by end March 2009 and, in mid-December approved the issue of a tender for concrete paving and miscellaneous works at the Gharghur Transmission Station. It also upgraded its closed circuit television security system. The Authority is also discussing alternative energy measures at Gharghur.
